Reminders for all of us as we return to Mass on a weekly or daily basis.

A. In keeping with public health guidelines during the pandemic:
   1. Except when eating, masks are to be worn indoors by everyone over
      the age of two.
   2. Masks are not required outdoors.
   3. Except when ministering Communion, the presider does not wear a mask
      during liturgy to promote clear communication.
   4. Lectors and Cantors should remove their masks when executing their
      ministries.

B. Outside of families, a gesture of bowing and acknowledging those around us
   will replace embracing and shaking of hands.

C. Bishop Barber has stated that people may receive Communion in the hand or
   on the tongue. We request people wishing to receive on the tongue wait until
   the end of Communion distributions so the priest may cleanse his fingers after
   so ministering.

D. The common posture of reception of Communion is standing. The
   congregation for Divine Worship stated in 2002 that this is to ensure unity of
   posture in keeping with article 42 of the General Instruction of the Roman
   Missal.

E. For the duration of the pandemic, generally, we will not offer Communion
   under both kinds.
